General Information

Guitar Workshop Plus is a program designed for aspiring musicians of all ages to promote the growth and development of musical knowledge. Our program is unique in that we cater our instruction to the student's personal style, level of experience, and musical goals. We create a healthy, non-competitive, and supportive environment in which to learn. Each day consists of morning and afternoon classes that involve a hands-on approach, late afternoon clinics, ensemble performances, and evening concerts. Students will also enjoy visits from world-class guest artists and have many performance opportunities. The complete immersion in music allows students to walk away with enough material and musical ideas to last until next year.

Whether you just started playing recently and want to get started in the right direction, or you've been playing professionally and want to further develop your craft, you will find what you're looking for at Guitar Workshop Plus. Currently instruction is provided for guitar, bass, drums, keyboard, and vocals. Students elect to study a class or seminar each session. The guitar program is extensive and unique in that students elect to study the style that they enjoy most. Guitar styles include rock, blues, jazz, acoustic, classical, country, and a guitar course for the absolute beginner. We also offer comprehensive bass, drums, keyboard, vocal, and songwriting classes covering various styles, theory, performance, and technique.

Each course combines hands-on technique with musicianship skills such as theory, ear training, rhythm studies, etc. In addition, most of these classes include a one-hour per day rhythm section class in which students are given the opportunity to play with the faculty rhythm section and apply the skills and knowledge they are acquiring in class.

CLASSES

Classes are offered for varying skill levels ranging from beginner to advanced. On the first day of the session, all students are evaluated to ensure that they are placed in the appropriate class level thereby maximizing their learning potential. Class sizes are small to promote individualized attention for each student as well as to facilitate ensemble arrangements.

SEMINARS

Seminars are courses which concentrate on specific topics and will sometimes feature guest instructors. Generally, seminars are designed for the intermediate to advanced player although some may be open to all levels. Students are evaluated to ensure that they are at an appropriate level for the course. Seminar students meet with the instructor all day and, because there is no restriction to class size, do not take part in rhythm section classes. Faculty led ensembles for seminars depend upon class size and format.

CLINICS

In addition, all students may attend clinics. Each day, two or three clinics are offered covering topics such as improvisation, songwriting, vocals, scales and modes, building technique, slide, percussion, hand drumming and more. Students are welcome to sign up for these clinics on campus.

OUR ADMINISTRATION

Our administration has been responsible for organizing and directing summer music programs across North America for the past 20 years. Founded by Brian Murray, a Toronto area guitarist/performer/educator, the Guitar Workshop Plus administration and faculty have developed a loyal student base due to the positive experience, excellent curriculum, professional faculty, visiting guest artists, and the opportunity to meet other people who share the same musical interests.

OUR FACULTY

Our faculty is carefully selected and comprised of professional musicians and instructors with extensive experience teaching in workshops, private settings, and post secondary institutions. These talented educators have considerable recording backgrounds, perform around the world, author instructional books and write articles for music magazines.

OUR STUDENTS

Our program is open for beginner to advanced students aged 12 through adult. Our students come from diverse backgrounds including young-aspiring musicians, adult hobbyists, high school and post-secondary students pursuing music careers, semi-professional and professional musicians. Students are welcome to attend individually, with friends or family, and even as a complete band.

ONSITE STUDENTS & MEALS

On-site students stay in the hotel or dormitories and are provided with three meals per day. A wide selection of food and vegetarian options are always available. Students are housed according to age and gender. Groups of under age students are supervised by staff members who also stay in the dorm house. Arrangements can be made to be roomed with a specific roommate. Please include your roommate's name on the application form. A limited number of private rooms are also available for an additional fee.

OFFCAMPUS / COMMUTER STUDENTS

Students who do not stay on campus overnight during the session pay a lower tuition fee. Meals are not included but a weekly meal plan is available for an additional cost.

UNDERAGE STUDENTS

Unless accompanied by an approved member of the staff and a signed parental permission form is on file, students under the age of 18 are not permitted to leave campus. Those under age students who drive to the campus must leave their car keys with the office at the beginning of the session. Off campus students who are under age 18 must be signed in and out by their parents/legal guardians when they arrive and leave the campus.

Parents of under age students must notify the office staff if their child takes prescription medication. All medicines must be stored in our office and will be dispensed as per written instructions outlined on the health form.

FINDING "THAT" SOUND

"This whole concept started in my studio. When recording, the musicians were looking for tones and textures that we couldn't get straight from the guitar so I started collecting great sounding pedals. Then we started building devices with the help of some friends. That's how the first pedal prototypes were born. We believe the pedals we've created are highly usable, great-sounding pieces of professional gear. A magic pedal makes the pedal board. We're trying to design pedals that make the board and stay on it".

OUR GUEST ARTISTS SHARE THEIR KNOWLEDGE AND EXPERIENCES WITH OUR STUDENTS WHILE VISITING CLASSES, CONDUCTING CLINICS, AND PERFORMING CONCERTS.

STEVE MORSE (Nashville Session)

Steve Morse is a Guitar Player Hall of Famer, songwriter and bandleader of The Dixie Dregs, member of super-group Flying Colors, as well as former guitarist of Deep Purple, Kansas and more. Morse's position as a true legend in the guitar community has long been cemented, even being considered the "best guitarist...I've ever worked with" by world-renowned producer Ken Scott (Pink Floyd, The Beatles, Jeff Beck, David Bowie). Guitar Workshop Plus is very pleased to welcome Steve to the program.

RIK EMMETT (Toronto Session)

After a dozen platinum LPs from '75 to '88 with Triumph, Rik Emmett has released 25 more solo projects, continuing to write and record, ranging across many genres. Six decades in the biz landed him in five Halls and two Walks of Fame, with a few 'Best Guitarist' awards in various categories along the way. His poetry collection 'Reinvention' came out in 2021, followed by his memoir ('LAY IT ON THE LINE - A Backstage Pass to Rock Star Adventure, Conflict and Triumph') in 2023. His newest 2024 work is entitled 'Ten Telecaster Tales', a combination of ten instrumental pieces with an accompanying book that is arguably the most comprehensive attempt at liner notes in the history of instrumental fingerstyle electric guitar albums. Rik was a Guitar Player magazine columnist for over a dozen years and taught on the Humber College music faculty. The avowed family man has retired from touring and is currently living the dream in Burlington, Ontario.

STUART HAMM (San Diego Session)

Stuart Hamm is perhaps best known for his recording and touring roles with guitar legends such as Steve Vai and Joe Satriani. However, for serious students of the electric bass, Hamm's influence and impact on the instrument are far more extensive. Regarded as one of the most technically gifted bassists to have emerged out of the jazz/rock genre in the last thirty years, Hamm has released a string of impressive solo albums, along the way becoming an ambassador for virtuoso bass playing through his mastery of slap and pop techniques and his pioneering work with two handed tapping and solo bass playing. He has also released several successful tuition videos, beginning with Slap, Pop and Tap for the Bass in 1988 and his more recent series of videos for his Truefire 'Stu U' course. A graduate of the prestigious Berklee College of Music, Hamm has been awarded the schools 'Distinguished Alumni Award'.

GREG KOCH (Ft. Lauderdale Session)

Milwaukee native Greg Koch has forged a successful career as "a guitar player's guitarist." He is not only a fiercely creative player with a whole trick bag of impressive techniques, ranging from Albert Lee chicken-pickin' to Albert King string-bending to all-out Hendrixian abandon, he is also a clinician for Fishman Transducers and his wildly popular "guitar test drive" videos (4,000 to date) for Wildwood Guitars of Louisville, Colorado have generated 50 million views. Koch also has a signature axe which was released in 2019 by Reverend Guitars, named the Greg Koch Signature Gristlemaster. The guitar colors were given somewhat humorous names like: Kochwork Orange, and Blucifer. He is also a best-selling method book author and video instructor for music publisher Hal Leonard and a contributing columnist for a variety of guitar magazines including Guitar Player. Guitar great Steve Vai, who released Koch's 2001 album The Grip on his own Favored Nations label, heaped praise on his fellow guitarist: "Greg Koch is one of those rare guitarists that can blend various styles with a light-hearted approach and a tremendous amount of technique. Hearing him play is inspiring to a guitar player to try to achieve greatness on the instrument."
